P R E F A C E.

IN February, 1865, we purchased the good will of the Newark City Directory from Messrs. Jennings & Folwell, the then proprietors, and in June following, published the Directory for 1865-6.

We were no novices in Directory publishing, and believed that we could furnish the people of Newark with as good a book as any parties who would undertake the task.

Unforeseen difficulties had however to be encountered, and obstacles were placed in our path by some who should have been guilty of better things. All these troubles were, in time, overcome, and our canvass completed.

On a comparison of the names with those of the previous Directory, many who should have been returned were missing, while others differed materially in spelling. These names were intrusted for correction and other information, to one — Wright, who came to us with superior recommendations from prominent citizens of Newark, as to capacity and integrity. This individual not only neglected his business, but absconded with all the despatches and manuscript, and some fifty dollars collected from the citizens for capitals, extra lines, etc.

We made the best of it, repairing the damage in every way possible (except an entire recanvass), and published the book. We knew it must be, to some extent, imperfect, but were hardly prepared for the ferocious onslaught of the "Journal," as follows, viz.:

"THE NEWARK DIRECTORY.—A volume purporting to be "Pierson's Newark City Directory," has recently been published by a Jersey City house, and is now being delivered to subscribers in this city. We invested a two dollar greenback in this volume a few days ago, and almost the first piece of information we sought from its pages was nowhere to be found. Our curiosity naturally led to a closer scrutiny, and we are really surprised that the work could have been gotten up in such a slovenly and negligent style. The names of several prominent citizens and city officials are entirely omitted, showing gross carelessness on the part of the canvassers. The type is much larger than has usually been used for the Directory, and this, together with the loose style of binding, is calculated to deceive the public eye with the belief that the volume because larger in bulk contains more matter than its predecessors. There is no map of the city, and, indeed, take it altogether as a work of reference, we are constrained to say that it is at least very incomplete, and cannot compare with the former editions published in this city."

Now, if there is anything we like, it is a sharp, independent criticism, but it at the same time should be fair, else it is shorn of all power, and fails to accomplish its mission.

Certainly no one could charge us with having paid a large consideration for this first-rate advertisement.

The "Daily" favored us with a short notice, damning the volume with very faint praise, saying little, and meaning less.

In addition, we were supplied with several complimentary letters. Our "house" being "furnished" with a rich specimen by an unappreciating "Thomas," we laid this letter by, intending to publish it in this connection, but cannot just now lay our hands upon it; its profanity and abuse will keep for future use.

William H. Harper, Ins. Agt., 318 Broad St. Newark.

New England Mutual Life Insurance Co. Assets over \$4,000,000. M. Daniels, Agent, 259 Broad St.

So far from being discouraged, we determined to make an effort to present a Directory for 1866-7, which could not fairly be complained of, and to this end we copied and compiled every name in the Directories of the two preceding years, and after our canvass was completed compared them with these names, and every name not returned this year, or if returned with difference in spelling, or otherwise, such name was placed in charge of a special and trustworthy canvasser, and a correct return made by him. The labor and expense incident thereto were very great, and the delay of getting out the book was unavoidable, but we are rewarded by the conviction that no Directory of the City of Newark was ever before published, approaching to it in correctness.

The Directory of 1864-5, contains 16,635 names.

" " 1865-6, " 18,856 "

" " 1866-7, " 23,700 "

An increase of 7065 names in two years.

The paper, typography, and binding, need no commendation from us.

At the solicitation of many business men, we have added to the Directory a Business Register. Our first idea was to make a complete list of all firms and individuals doing business on their own account, but subsequent reflection convinced us that in view of the heavy expense attending it, and the fact that such publication of one's business, was to all intents and purposes, an advertisement, such a course would not be desirable.

We determined, therefore, to restrict the benefits of the Register to parties who advertised in the Directory, or who were willing to pay for such additional prominence.

By this course the value of the book is not in the slightest degree lessened as a reference, the names of all citizens being found in the "General Directory," under their proper letter, to which all persons desiring to find them will naturally turn, the sole difference being in the fact, that strangers desiring to ascertain about some particular class of business, will simply be referred to such parties as are patrons of the Directory, a business advantage eagerly seized upon by enterprising men, and likely to repay largely the small sum invested.

Of course the large number who see no value in a Directory or Directory advertising, cannot complain if their neighbors see differently and act accordingly.

The publisher desires to present his acknowledgments to the business men of Newark, who have so liberally patronized the Directory by advertisements, or otherwise; their confidence will be appreciated by an honest effort to make the Directory of 1867-8 an improvement, *if possible*, over that of 1866-7.

**THE STANDARD**

**AMERICAN  
BILLIARD TABLES**

AND

**Combination Cushions.**

---

**Messrs. PHELAN & COLLENDER,**

Would respectfully call the attention of persons wanting BILLIARD TABLES to the great superiority of the above Tables, manufactured exclusively at their establishment.

At the Billiard Congress of 1863, composed of all the first-class players of America, it was unanimously resolved that tables of our manufacture should be used at all matches for the Championship, as the best and only reliable tables.

Seven distinct patents for improvements in Billiard Tables have been granted to us by the United States Patent Office, and we have lately obtained a Patent from the French Government for our improvements in Billiard Cushions.

We employ, in the construction of our Tables, a variety of machines specially made for the purpose, by means of which we are enabled to insure a scientific and mechanical accuracy hitherto unknown in Billiard manufacture.

Having a long experience and thorough knowledge of all the appliances of Billiards, and constantly on hand a large stock of the best and most thoroughly seasoned materials, we are prepared to furnish everything required in the Billiard Line with unprecedented dispatch.

Parties ordering from us will find our prices as low as good work can possibly be made for. We sell first-class articles at a fair price, and will not make an inferior article at any price.

Orders by mail carefully and promptly executed. Illustrated Catalogues and Price Lists sent by mail. There were 269 Pianos, from all parts of the world, entered for competition,

sensation in musical circles throughout the Continent, and as a result the  
Messrs. STEINWAY are in constant receipt of orders from Europe, thus inaug-
